***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest third circuitry coupled to the first and second circuitry for during a first mode of operation, supplying power to the first and second circuitry and during a second mode of operation , reducing power to first circuitry, while supplying power to the second circuitry, so that the first signal's logic state is lost, while the second signal signal's logic state is preserved as called for in claims 1 and 14. Therefore, claims 1-25 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
